WORK EXPERIENCE

Captive Audience

May 2022 – September 2022

VR Team Lead

Regina, SK

- Managed the entire lifecycle of virtual reality experiences, from setup to teardown, while providing on-site and remote assistance to quickly resolve issues in a fast-paced, time-critical environment.
- Leveraged strong communication and interpersonal skills to represent various brands at events and provided tailored experiences that boosted brand image and created potential business opportunities.
- Collaborated with a dynamic team to attract and maintain customer attention by providing engaging and informative experiences, directing them to additional resources to further their interest in the promoted brand.

Self-employed

June 2016 – September 2021

Various roles

Regina, SK

Technology consultant

June 2019 – September 2021

- Demonstrated expertise in technical support by effectively resolving smartphone and computer issues, installing and configuring residential electronics like security cameras, routers, and printers, and upgrading desktop computers to maximize performance.
- Offered personalized and reliable long-term support to clients, ensuring their continued satisfaction by providing follow-up assistance for previously resolved issues either in-person or via video call.

Lawn care

June 2016 – September 2021

- Acquired and maintained seasonal customers through door-to-door sales, efficient scheduling and billing.
- Enhanced the aesthetics of homes through meticulous lawn mowing, weed removal, and other yard maintenance.

EDUCATION

University of British Columbia

September 2021 – Present

Bachelor of Science, Computer Science, Year 3

Vancouver, BC
